

OPERATING INSTRUCTION TABLE

LAMP

1. Switch on / off / color change:
Slide the power switch on the bottom of the lamp to the on position, and then tap and hold your finger on the ON / OFF button on the top of the lamp. Tapping allows you to turn white, warm and natural light on and off.
2. Adjusting the brightness:
By touching the ON / OFF button for more than one second, you can adjust the brightness of the lamp.
3. The silicone tube can be adjusted by bending.
4. You can either put the lamp down or screw it in at the desired place.
5. Charging the lamp:
Die Lampe mithilfe des beiliegenden Kabels und einem geeigneten Adapter in einer Steckdose einstecken und solange laden bis das Lämpchen blau leuchtet.
6. Insert the lamp into a socket with the enclosed cable and a suitable adapter and charge until the lamp lights up blue.
